Tools & Platforms: Git, GitHub, Vercel, Sanity CMS, NextAuth, Stripe

EXPERIENCE

Web Developer & Technical Project Manager

Pak Alpha Manufacturing

March 2025 – Present Remote

- Designed and developed a responsive corporate website using modern web development technologies, focusing on performance, usability, and cross-device compatibility.
- Managed and configured domain registration, DNS configuration, hosting setup, Emails setup and production deployment to ensure a successful website launch.
- Collaborated with the client to understand requirements, manage technical tasks, and deliver website and digital branding solutions.

Jr. Software Developer

A Pakistan Based Shipping Company

January 2026 – Present Remote

- Maintained and debugged a large-scale PHP-based web application by identifying, analyzing, reproducing, and resolving issues across multiple files and application modules.
- Collaborated in real time problem solving sessions to understand root causes of bugs and efficiently implement consistent fixes throughout the codebase.
- Gained hands-on experience in legacy codebase maintenance, bug replication, debugging, troubleshooting, and software maintenance.

PROJECTS

Furniro – Furniture Marketplace
Developed a full-stack furniture marketplace using Next.js, TypeScript, NextAuth, and Stripe, featuring product management, order management, authentication, and a dedicated admin dashboard.

Github Repository Live Demo
